WOW MAN!

INTENSE ROBOT REBELLION...
WITH MEGA MAN III

Mega Man uses a rocket
after the evil Dr. Wily.

The last level is filled with
robots to defeat your enemies.

Shadow is controlling them, powerful
enemies in your way.

MEGA MAN MEANS MEGABUCKS: Mega Man III® will bring big business to your PlayChoice® system. Because this game is big on fun, excitement and challenge!

Contenders blast Mega Man, in his search for energy crystals, through a galaxy of mining stations controlled by ruthless robots. An amazing 21 different levels of rapid fire help Mega Man battle against these armies of metal maniacs to gain their super powers. But the rebellious robots won't give up without using every android-annihilator known to Mega Man. That's when players call on Rush, the wonder dogdread, for special mechanisms that speed them past danger and assist in enemy melt-down. It's man vs. metal as players have more fun than humanly possible.
